

# RECYCLING CHANGES

## PLASTIC BAGS NO LONGER RECYCLING FRIENDLY

Please note that the Tri-County recycling program no longer accepts any plastic bags because the bags wrap around sorting equipment and cause major problems.

You may single-stream, or combine all recyclables, such as aluminum, plastic, glass and tin into reusable containers.

Here are guidelines to follow when selecting a reusable container.

- Must be between 15-33 gallons
- Must have exterior handles
- Weigh less than 50 lbs. when full
